Dignified Home for the Physically and Visually Challenged

The institution always admits physically and visually challenged students with open hands. The institution takes it a challenge to teach and mend physically and visually challenged students. Till the completion of the course the institution takes the students on the shoulders with much care and concern. The institution closely monitors their academic and moral progress. By providing the best accommodation to the physically and visually challenged students, the institution stands as a role model to all other institutions. For the physically challenged students, wheel chair and ramp facilities are provided in the entrance of the class room and auditorium. The institution pays more need to the physically and visually challenged students. During the university examination, qualified people are appointed as scribes for the visually challenged students. Wherever they go, they are accompanied and led by caring assistants. In the hostel, special rooms are allotted with good toilet facilities and healthy food is served. Round the clock special assistants are watching over them. So the disability is not an impediment to them.

During the leisure hours, faculty members give special coaching to the physically and visually challenged students by teaching the lessons and giving counselling to them. Scholarships are provided and special tours are arranged. They feel at home. They appear dignified and honourable. The physically and visually challenged students' poor family background is another great obstacle to them. They feel inferior. If they are given job immediately after their completion of the degree, and start earning, they can lead a happy, contented and secured life.

Effective Teaching Learning Process

The institution has more intake every year. Many students opt this institution for their higher studies. It compels the institution to provide effective teaching learning process. The institution has efficient experienced qualified faculty members. The freshers need more guidance and tender care than the senior students. Having in mind all these things the institution takes every step for the betterment of the student community. The institution takes more pains to fulfil the future needs of the students. Getting centum result is not only our aim but also making them stand on their legs is the main aim of the institution.

The institution provides appropriate materials to the students for an effective teaching learning process. The materials cater to the needs of the students. A building that is built on the rock withstands any stormy weather. Good materials give strength and long life to the building. They make the building as firm and solid as a rock. The building stands for ever and it never falls down. Appropriate and good materials alone nurture and bring up knowledgeable students. The institution has many university rank holders. It is because the experienced and dedicated teachers prepare advanced and high standard study materials. In addition to this, the students are asked to write assignments on a given topic by referring to different books. The students are encouraged to take classes. Thus, they prepare and equip themselves well for their future.

Our students are coming from rural background and Tamil medium schools. So, the institution takes more efforts to make them grow and reap success.
