

### **7.2.1 Best Practices:**

#### **1. Title of the Practice: Sheltered Upbringing**

##### **Objectives of the Practice:**

To care for the girl students

##### **The Context:**

Most of the women students are coming from rural background. Their parents are farm workers and labourers.

##### **The Practice:**

The women students are given special attention. The Girls' Retiring Hall is built for the girls to sit and study, to rest and relax.

##### **Evidence of Success**

In the institution, the women students have had a sheltered upbringing.

##### **Problems Encountered**

The young girls have many dreams in their lives but due to the family's low economic status sometimes the women students could not continue their studies. It is the end of all their hopes and dreams.

## **2. Title of the Practice: Institutional Healthy Lifestyle**

### **Objectives of the Practice:**

To teach healthy life style

### **The Context:**

The boys are young and they are they are unaware of the healthy life style.

### **The Practice:**

The institution takes great efforts to bring out the hidden skills.

### **Evidence of Success**

Students learn sportsmanship and participate in a range of sporting activities. They keep healthy by eating well and exercising regularly.

### **Problems Encountered**

It is a great challenge for the institution to reform and refine the young learners. If the young students put a bridle at the external influences and factors, they will achieve their prime target.
